🎓 Education

B.Tech in Computer Science and Engineering

Parul University, Vadodara

2026

💼 Experience

Software Engineer Trainee

Promact Global · Trainee

05/2026 – Present

- Migrated and optimized multiple production websites on Cloudflare, and built e-commerce, performance marketing, and marketing automation using Cloudflare Cron Workers and GitHub Actions.
- Set up multiple MCP servers and developed a broad full-stack and Gen AI skill set across several live projects.

Full-stack Developer + Gen AI

What an Aldea · Internship

- Developed full-stack features for a real estate platform showcased at **PropTech Connect Dubai 2026**, using Next.js/Node.js with integrated Gen AI APIs, designed n8n workflows for image processing and automation.

Freelance Web Developer

Fiverr, Upwork, Unstop, Personal Connections

04/2025 – Present

- Built scalable full-stack apps using Node.js, Supabase, and Firebase with GSAP animations, Three.js 3D visualizations, robust authentication, and cloud optimization for high-performance, interactive user experiences.

AI/ML Developer Projects & Hackathons

- Deployed AI solutions using TensorFlow, HuggingFace, and Gen AI; built AI WhatsApp Chatbot and n8n automation workflows to improve operational efficiency.

📜 Certifications

- Anthropic - AI & Claude Development Courses
- Google - Prompting Essentials
- Machine Learning with TensorFlow - Infosys Spring- board
- Supervised ML: Regression & Classification - DeepLearning.AI
- Theory of Computation - NPTEL
- Computer Networks and Internet Protocol - NPTEL
- Google - Foundations of User Experience (UX) Design

📁 Projects

AICEK - AI Agent Config Optimizer

A TypeScript CLI that audits and scores Claude Code / Cursor configs (0-100) and recommends token-saving fixes. Published on npm.

Multiple Automation Pipelines

Built n8n and Gen AI marketing automation workflows, created AI video creatives with Higgsfield, and developed multiple Claude skills automating various marketing tasks, plus performance marketing automation deployed on Cloudflare Workers.

AI Video Editing & Captioning Tool

Extended Remotion to build an AI-powered programmatic video editing tool with code-driven React compositions, and built a Gradio-based video analysis tool using Whisper, BLIP, and YOLOv8 for multi-layered video understanding and captioning.

Ride Rescue

Location-based roadside help app. Finds nearby emergency services fast. Built with Next.js, TypeScript, secure login, maps and modern UI.

🧠 Technical Skills

Web Development

Next.js, React.js, Node.js, Astro, Strapi, Cloudflare D1, KV, Firebase, JavaScript, HTML, CSS

AI/ML

TensorFlow, Generative AI, Agentic AI, Hermes Agent, Whisper, YOLOv8, BLIP, OpenCV

Tools & Platforms

Claude Code, SEO Tools, Hugging Face, OpenRouter, GLM, Google Antigravity, Cloudflare, GitHub Actions, MCP, Gradio, n8n.io, Google Colab, Twilio, Google Cloud Console, Power BI, Git/GitHub, VS Code

Design & Editing

Canva, Figma, Photoshop, Premiere Pro, Capcut, Filmora, Remotion

🔑 Activities

SIH 2025 Nationals Finalist

PropTech Connect Dubai 2026 – Contributed to platform development featured at the conference.

Technical Coordinator & Social Media Manager, Career Development Cell, Parul University

(Managed technical operations and social media for university.)
