PROFESSIONAL SUMMARY

Software Engineer with **full stack**, **AI automation** and **AI evaluation** experience. Builds serverless apps (Next.js, Node.js, TypeScript, Python, Cloudflare Workers), **AI agent workflows** (Claude, MCP, n8n, Zapier) and **API integrations**, with **prompt engineering**, **LLM evaluation** and AI output validation. Promoted from trainee to full time in 4 months. **Open to remote contract and freelance projects.**

PROFESSIONAL EXPERIENCE

Software Engineer - I | Promact Global
10/2026 to Present · Full time
Promoted from Software Engineer Trainee in 4 months

- Built and shipped **marketing, e-commerce, sales and HR automation** systems on **Cloudflare Workers**, **Claude Code**, the **Meta API** and **Vapi**, working directly with marketing and operations teams.
- Raised **PageSpeed** from 70 to **99** (mobile) on one production site and 55 to 75 on another; migrated **800+ blog posts** to a new stack on Cloudflare.
- Built **prompts and validation checks** that verify **AI generated content** against source data before publishing; presented a marketing automation roadmap that cut the planned timeline from **12 months to 4**.

Full Stack Developer + Gen AI | What an Aldea
Internship

- Built full stack features and n8n image workflows for a real estate platform shown at **PropTech Connect Dubai 2026**.

Freelance Web Developer | Fiverr, Upwork, Unstop
04/2025 to Present

- Built full stack apps with Node.js, Supabase and Firebase, with secure authentication and 3D visuals.

SELECTED WORK

Performance Marketing Automation (Meta Ads) | *Claude Code, Meta Marketing API*

- 3 tier system: daily reporting, optimization advice and a campaign builder that keeps ads paused until approved.

E-commerce Order & Shipping Automation | *Cloudflare Workers, Shopify, Shiprocket*

- Webhook driven flow with signed one click approvals, invoices, labels and Amazon tracking sync. Standard flow live.

AI Sales Voice Agent & Lead Funnel (team build) | *Vapi, Cloudflare Workers, D1*

- Calls hot leads within seconds, books callbacks, sends payment links, logs outcomes; automated drip emails.

Content & SEO Automation Engine | *Claude routines, OpenSEO, DataForSEO, Search Console*

- Automated blog publishing, a Substack podcast and newsletter pipeline (testing) and SEO keyword research.

HR Automation Platform (in development) | *Microsoft Graph, PostgreSQL, Cloudflare*

- Preboarding, onboarding and offboarding workflows with email automation and AI assisted writing.

RevTrack, GST Invoicing SaaS (team build) | *Next.js*

- GST invoicing, expenses and inventory for Indian SMBs with GSTR ready exports and role based access. Live.

SKILLS

Languages	Python, TypeScript, JavaScript, SQL, HTML, CSS
Frameworks	Next.js, React.js, Node.js, Astro, Strapi, Remotion, Gradio
AI / ML	Prompt Engineering, LLM Evaluation, AI Output Validation, AI Code Review, AI Agents, Agentic Workflows, LLM Integration, MCP, Claude Code, Claude Skills, Generative AI, TensorFlow
Automation & APIs	Workflow Automation, n8n, Zapier, Vapi, Meta API (Instagram, Facebook), Webhooks, REST APIs, Shopify, Shiprocket API, Twilio
Cloud & DevOps	Cloudflare Workers, Cron Workers, D1, KV, Turnstile, GitHub Actions, CI/CD, PostgreSQL, Supabase, Azure, Infisical

EDUCATION

B.Tech in Computer Science and Engineering
Parul University, Vadodara | 2026

CERTIFICATIONS

Anthropic: AI & Claude Development Courses · Google: Prompting Essentials · DeepLearning.AI: Supervised ML, Regression & Classification

ACHIEVEMENTS

- **AICEK:** TypeScript CLI published on npm that scores Claude Code and Cursor configs 0 to 100
- **[National Finalist] Smart India Hackathon 2025**
- **PropTech Connect Dubai 2026:** contributed to platform development featured at the conference
- **Technical Coordinator & Social Media Manager**, Career Development Cell, Parul University
